A message from leadership

Dear Friends,

The annual impact report serves as a chance to pause and reflect. It is our opportunity to express gratitude for your unwavering support, and celebrate the collective achievements we've made over the past year.

At Community Hospital of San Bernardino and St. Bernardine Medical Center, our leadership, medical professionals and staff recognize the pivotal role philanthropy plays in upholding our hospital's standards of excellence today and in pioneering innovative approaches to patient care for tomorrow. Your inspiring and generous contributions have propelled groundbreaking programs, facilitated the development of state-of-the-art facilities and equipped our clinicians with the necessary tools and technologies to provide the highest quality care to our community.

With the support of over 560 donors, we've raised a record \$3,957,000 to further our mission and enhance access to quality health care for all. Throughout fiscal year 2025, this generous support along with a large amount of transfers to the hospitals have enabled us to expand and enhance our robotics program, begin our project to build an onsite FQHC as well as purchase much needed capital equipment.

As you peruse the uplifting stories of gratitude in the pages ahead, remember that it's your compassion and generosity that enable Community Hospital of San Bernardino and St. Bernardine Medical Center to deliver exceptional care. Medicine continues to progress, and our work remains unfinished. Together, we will continue making a meaningful impact and actively transform the lives of every patient we serve.

We extend our heartfelt appreciation for your confidence, collaboration and steadfast support. We are profoundly grateful for you.

With gratitude,

Dan Murphy
Vice President & Chief Philanthropy Officer

Legatus dé Cor

About the Legatus dé Cor Society

The philanthropic spirit is given a voice when wishes are expressed in a living trust or will. While many may think philanthropy is reserved for a select few, the truth is that every planned gift to Community Hospital of San Bernardino and St. Bernardine Medical Center make a mark that will last throughout history. Planning your financial giving is a powerful opportunity that ensures your wishes come true and can be a creative way to help future generations of our community.

Dignity Health Foundation – Inland Empire is committed to meeting the growing health care needs of the residents throughout the Inland Empire. We place a special emphasis on healing the body, mind and spirit with compassionate advanced medical technology and treatments.

Planned giving does not have to be complicated – and it is not only reserved for those with great wealth. It can be as simple as adding a small bequest in your will or living trust. Once you are a cherished planned giving donor to Community Hospital of San Bernardino or St. Bernardine Medical Center, you will become part of the lasting legacy of a planned giving society called The Legatus dé Cor Society (Legacy of the Heart). We want to recognize donors like yourself for the impact they leave in our community by “giving of the heart” through a planned gift. If you wish to remain anonymous, the Foundation will honor that.

If you want to leave a legacy that lasts beyond a lifetime, the Legatus dé Cor Society may be just the right choice for you.

Visit our website for more information on how you can leave a lasting legacy.

Leave a Legacy of Hope and Healing with Dignity Health Foundation Inland Empire

Create lasting impact across the Inland Empire by including Dignity Health Foundation – Inland Empire in your will or trust. With our free, easy-to-use planned giving tools powered by FreeWill, you can ensure compassionate care, vital community programs, and humankindness continue for generations to come. Your legacy can be a gift of healing, today, tomorrow, and always.

At Dignity Health Foundation – Inland Empire, we believe that humankindness means advancing care for the whole person. That care extends far beyond the walls of the hospital, including helping our donors, employees, and communities plan for the future.

You may be surprised to learn that 71% of Americans don't have a will or trust, leaving many families unprotected in the event of the unexpected. Probate alone can take 9 to 18 months and cost up to 10% of an estate's value.

That's why we're proud to offer a new, free resource through our partnership with FreeWill. This secure online tool allows you to create or update your will at no cost—giving you peace of mind and confidence in your plans for tomorrow.

Having a will ensures that your priorities are honored, your loved ones are cared for and your future is planned with confidence. Whether you are creating a will for the first time or updating an existing one, this tool makes the process easy and accessible.

We are honored to share this resource with our larger Dignity Health Foundation – Inland Empire community as part of our ongoing commitment to serving the whole person—body, mind and spirit. If you have any questions about this new partnership, please contact me or visit our website: <https://inlandempire.mygiftlegacy.org/>
